13	More interaction with community members face-to-face. The DPW workers no longer come down our driveway so we don't have an opportunity to say hello or offer them a cold drink on a hot day or a hot drink on a cold day. Previously, we could positively interact. Police used to ride bikes and stop and say hello. It would be nice for police and DPW workers to stop and say hello to children and residents if time allows. Bayside employees used to have more communication and relationships with its residents. Many residents and Bayside employees knew each other around their homes and on the streets. 21	Right now there are too many emails. Keep these to two times monthly unless there is a special reason. Otherwise, I just delete many without reading.	Jun 26, 2012 2:07 PM
22	Use billboards and signs throughout the village especially near the intersection of Port Washington Road and Brown Deer to keep residents up to date with what is going on in our community	Jun 26, 2012 11:16 AM

37	I think the e-mail and monthly newsletter is a very good way to get teh word out.	Jun 18, 2012 11:50 AM
38	Hold quarterly "Village Hall" meetings with an agenda that is sent out to residents,prior to the meeting. All the technology is great, but nothing can ever take the place, of good old fashioned, face to face contacts. It would be a great way to network and to increase the sense of community.	Jun 16, 2012 12:35 PM
39	I think you're doing a good job of using a variety of media to get your messages out. Seniors are more likely to read a newsletter mailed to them, and younger adults are more likely to prefer electronic communications and social media. I think it's important to give people options. 42	There is no reason a citizen should feel intimidated when we come in the Village offices.	Jun 15, 2012 10:08 AM
43	On FB I think Bayside Buzz and the Village of Bayside postings are a bit over the top. They show up next to one another and say the same thing.	Jun 13, 2012 12:53 PM
44	I really like the emailed version of the Bayside Buzz. I read it, and in a page, I feel like I am up on things. Great job by Andy synthesizing lots of information into a single page.	Jun 12, 2012 8:30 AM

51	Keep up the good work. Consistent communications and message	Jun 5, 2012 8:03 AM
52	Maybe lessen the frequency of the emailings and keep the content more condensed. Reminding me every other day that we have a recycling program can lessen the importance in my email cue, making me more likely to miss something more timely and important. Boy who cried wolf and all that.	Jun 5, 2012 6:22 AM
53	There are so many messages that contain relatively little info that I find myself deleting some unopened ones.	Jun 4, 2012 10:11 PM

68	Be more open about city contractors and resources being used by the city with our tax dollars. I was informed that recently a contractor's name being used by the city for work would not be given to a resident who was only trying to improve their property in our community. This should be a matter of public record anyways and to withhold it simply seems quite silly as the resident was only using them to secure a quote for improving their property. ????? Makes no sense to me! That is most certainly NOT an example of our Village communicating with us especially in the current governmental world we live in being driven towards full disclosure. 70	It would be nice if there was a planned activity during the Picnic (at a set time) that provided an opportunity for people to meet others in Bayside. For new residents the Picnic feels a bit unwelcoming. We have felt the 2 years we've attended that unless you arrive with folks you already know - people aren't really mingling or looking to talk to people they don't already know.	May 29, 2012 2:14 PM
71	The village should NOT pay for the picnic especially in these economic times. Ask for donations , area businesses and residents.	May 29, 2012 2:12 PM

14	Weekly Collection. My garbage rarely needs to be picked up weekly (we have a small bin and it can take 3-4 weeks to fill despite having a family of 5) Recycling is always full and weekly pickup would allow us to recycle more. Why pay more for a weekly program? It would discourage recycling and promote putting more in the trash, which is collected weekly without an additional fee. I don't understand why the village would charge an additional fee if recycling is the better thing to do.	Jun 29, 2012 11:27 PM

4	We LOVE, LOVE, LOVE living in Bayside! It truly is a wonderful community! The one issue we continued to have this past winter is VERY poor snow removal. I would drive across Brown Deer into Fox Point and the streets there are 180 degrees better than in Bayside. That MUST be addressed!	Jul 16, 2012 2:54 PM
5	We moved to Bayside 4 years ago and overall are very happy living here. We really enjoy the community events and the public schools are great. 12	I have lived in Bayside 20+ years and loved the wooded lots. Over the last 20 years it appears that the trees have not been pruned, shrubs are overgrown and yards are unsightly. I will most likely move in the next 2-3 years because of this lack of maintenance and deterioration of the neighborhood.	Jul 5, 2012 1:43 PM
13	we moved here because there were no street lights, sidewalks etc. the "old ways" were the most peace full and community comfort ways.	Jul 4, 2012 10:40 AM
14	1. In our neighborhood we have garbage containers out 3 days a week. Other neighborhoods do not. I think they are very unattractive additions to our neighborhood and a burden to store. It does save the village money, though. I don't have to put my garbage can out but once every 2 months or so. One small bag of garbage a week just isn't worth my effort to haul that huge container to the street every week. 2. I would like to replace my front entry doors. These are expensive. I can't see paying the architectural committee additional money	Jul 2, 2012 12:11 PM

to approve my taste. I will keep the old ugly steel doors and not replace them with the mahogany version. I'm not sure that was the aim of forming this committee. 3. I received the standard letter about my lawn being too long. The letter is very condescending. It states that the village understands that we're all busy. Lack of time may not be the reason people are unable to maintain their properties. Rewriting the letter, eliminating the speculation, would treat the citizens with a little more respect. In addition, the lawn was mowed 2 days before I got the notice. That doesn't seem to qualify as a chronic problem that requires a letter. 4. My lawn was long due to the standing water. This was a problem during our excessive rains in the spring. My property contains a swale that is flooded, and I am unable to mow it when there is standing water. I would like to know if there is a way this swale could be buried so that I could use that 10 feet of my property for which I'm sure I am taxed--not to mention the problem of possible flooding of my home. I was told by the village engineer many years ago that this swale is not an easement. Does that mean I can fill it in? Just kidding, of course, but it has been a big problem in the past, does me no good and probably costs me money in taxes for land I can't use. 5. A new neighbor was unhappy about the water at the bottom of his yard—a long way from his house. He called the village engineer who told him that the village could not do anything about this drainage problem. The engineer suggested the neighbor take care of the problem himself. I found him digging in my swale right over my buried phone lines. I would appreciate it if the engineer would suggest something more constructive, say, like start a rain garden. That area has always had water in the 30+ years I have lived here. If the neighbor requires a fix, the village should address the problem, if it can even be called a problem. 6. I'm not sure that nothing can be done about it, but I'd like to point out that the homes in my area that were on the market for years, did not sell due, in part, to the fact that the taxes are so incredibly expensive for such small houses. I have friends with similar houses to mine on acre lots in Waukesha County, and their taxes are almost half of mine. High taxes do not make Bayside a desirable place to live. 7. In conclusion, necessary services in the Village are excellent. My one big complaint is that the "Village" is too controlling of what the citizenry can and cannot do. I did not move to this village 33 years ago because it was a gated community. I moved here because of its rural charm with the wells and volunteer fire department and the businesses and their patrons who knew each other. I did not move into an upscale community with boutique businesses and where some of the citizens feel that a garage sale sign is beneath them. I'd like to sell my house some day in the near future, but I'm afraid I won't be able to afford the repairs mandated to put it on the market. I have always obtained permits where required, so that is not the issue. It's all the additional requirements conjured up over the years because someone was burned in the past when purchasing a home that was not up to their expectations. I'm really tired of all the rules and restrictions and fees. Like I said—I didn't move into a gated community and would never do so, but that seems to be where this village is headed.

21	Just wondering how the design for the new Bayside welcome signs was decided upon - the design is pretty unattractive. Maybe the community could have voted on several top design possibilities... Also, is there any way to assist neighborhoods with the cumbersome process of eliminating private wells and linking to municipal water lines? Previous cost given of approx. \$20K, and that is only if all homes linked to the water main, is prohibitive. What are the other viable options? Seems not only cost-prohibitive, but also a logistic nightmare if only some on the street link on initially, then others on the street decide to hook on later. How have other communities handled it? During the last 10-15 years, management of the village by the board of trustees and the village hall personnel has been outstanding. Thank you for all of your efforts. 33	My husband and I absolutely love where we live. We see ourselves in Bayside for a long time. Of course we wish our property taxes were lower, but that's a state problem, not a village fix. And property taxes are high all over. Let's face it, Wisconsin is overly reliant on them. But, the quality of life (great schools, low crime, good infrastructure) we get to enjoy makes that tax escrow payment each month worth it. Our streets are good and can't wait for Rexleigh to be redone this summer. The communication the village provides to its citizens is really second-to-none. I rarely call Village Hall, but when I do I get to talk with someone and on a few occasions, it has been Andy. I'm sure not many village managers pick up the phone. Love it. Keep up the good work. 37	We like living here. The new method of garbage, trash and recycling is GREAT. We feel very safe here; the police are visible and friendly. The village workers are also great. We have needed the emergency help and the ambulance etc. were here in minutes. That's a great comfort. The "medics" were very competent and professional.	Jun 26, 2012 12:28 PM
38	Establish a 503(b) BAYSIDE "CIVIC PRIDE" FOUNDATION to fund the installation of a municipal water system. Encourage our more affluent residents to make major tax deductible contributions. This would greatly enhance fire protection and availability of safe drinking water. The various runs, walks, and marathons should be routed on Port Washington Rd, not on Lake Drive. The present practice is hazardous for both drivers and participants.	Jun 26, 2012 10:08 AM
39	Very happy, have noticed improvements of past few years. Schools and community are by far the best I could hope for. Bayside has a geographic advantage, but police presence is also a key factor of our quality of life.	Jun 25, 2012 1:29 PM
40	Great place to live!	Jun 25, 2012 11:41 AM
41	#20-No, however I think the notes from the Village about keeping my lawn under 5" is ridiculous! We keep our property well maintained and do it ourselves, unlike the rest of our neighbors who hire lawn services. I don't like being harassed with little notes when a week of rain and warm temperatures has made the lawn grow vigorously. I think the rule is being scrutinized a bit too much. #42 -No more lawn noteplease, it really bothers me. I mean 5" is not that long and it's a lot greener than 1" grass.	Jun 25, 2012 11:29 AM

44	Our village should and needs to be able to protect our citizens against neighbors who harass them. The situation on Greenvale is something everyone is aware of. I read about a similar situation in MN recently. The police took action and arrested a woman for verbal harassing her neighbors. We should not tolerate such disgusting and threatening behavior in our community. I was very disappointed by the lack of action taken by our municipal court during the proceedings against the lunatic on Greenvale. Most citizens in Bayside are aware of the situation and very upset about the way it was handled overall. I don't think the police did enough and I'm not alone.	Jun 23, 2012 1:05 PM

The penalty should have been a warning at best. I remain offended by our PD.	Jun 20, 2012 12:29 PM

59	I'm sounding like the proverbial broken record, but it needs to be emphasized that portions of Fairy Chasm Rd (West in particular) alternate between the Tour de France and the INdianapolis 500! SOMetimes I've looked out my window and seen a huge group of bicyclists racing down the street, along with recreational bikers, people pushing strollers w/babies, huge trucks/landscaping trailers and "mere" pedestrians all navigating along the street at the same time!! It scares me the likelihood of accidents occurring. The bikers, in particular, are obnoxious and do not watch out for anyone, as we do for them (those driving vehicles). They can be rude and blatantly obnoxious. Many motorists blast down the street as if it's a race track. SOMetimes drivers in back o fme have BARELY slowed down to allow me to turn in to my driveway! 62	There should be no reason, why any Bayside resident, should struggle with social isolation or not having a way to get help, when needed and to be able to help, when asked. In this world of advanced technology, we forget to meet our neighbors, or to get to know them. Just by using a professional/social networking system, I am sure that Bayside holds great potential of giving by the residents. For example, an elderly person may be able to stay in their own home longer, if he/she could rely on some neighborly help and friendship. Bayside could increase the rental options, possibly tto mirror Eleanor Roosevelt's Garden Communities.	Jun 16, 2012 12:59 PM

64	Its extremely disturbing to see how our tax dollars are being spent in Bayside. Even the newsletter being sent on glossy printed paper. The number of police vehicles for a tiny village is incredible. I have lived in Bayside for over 30 years and the waste of tax dollars on ridiculous expenditures is embarrassing to say the least. Trees planted on Brown Deer road. Stones in concrete along Brown Deer Road, the brand new signage all over the village that citizens did not get to approve. The waste goes on and on. We cannot afford these expenses!!!	Jun 15, 2012 10:31 AM
65	I think that we have tried to almost make our village a city instead of a village. We do not need to impress people with a fancy village hall. Opps, too late for that!! We don't need to promote ourselves. We are a small village. Hopefully with lower taxes.	Jun 13, 2012 1:07 PM

72	In the past I made several comments on this survey to change the lighting at the Ellsworth Pavilion, and with the remodel you made those changes, so thank you very, very much for that. I have also made several inquiries regarding possible solutions to the depth, grade, and general severity of my road-side storm water ditch. While I received pleasant responses in the form of 'we will investigate and get back to you', nobody has ever really 'gotten back to me'. I will continue to lodge periodic concerns, as will my fellow neighbors on King Rd., until some definitive and conclusive action is taken, one way or the other. Thanks for a great community! We love raising our family here.	Jun 5, 2012 6:41 AM

74	It is inconcieveable to me that we line in the 21st century and utilize 17th century water acquisition. It is way beyond time to have safe, treated community water available in Bayside.	Jun 3, 2012 6:05 PM
75	I don't really have any recommendations for specific services, because the Village of Bayside is absolutely the best place to live west of Paris. But I do have a couple of thoughts: 1. How can we convince families with children or young professionals to choose Bayside over Ozaukee county? 2. We could plant trees along both sides of Port Washington from Brown Deer north to Laramie Lane and on both sides of Brown Deer, from Port Washington to Lake Drive. It will distinguish the village territory from the shopping area, add natural beauty and increase home values over time.	Jun 2, 2012 5:18 PM
76	I question the working conditions at the dept. of public works. Village of Bayside has a reputation of not being a great place to work. I've heard that workers are told not to be too friendly to the residents and that seems obvious by the workers reactions to residents. There is no need for that. We appreciate all the village workers and they should be treated properly. We are ALL part of this community.	Jun 1, 2012 9:30 PM

80	Several years ago, the village board let a vocal minority opposed to some type of municipal water scare them into cancelling a referendum on the issue. Since then, no one in authority seems to want to even utter the phrase. Take your head out of the sand...this is no longer some rural community and the water supply is uncertain at best. Show some leadership!! What will happen to property values when our private wells start failing due to a lowering of the water table?? Had I known anything about private wells I would never have purchased a home in Bayside and I could not recommend the village to anyone for the same reason.	Jun 1, 2012 2:09 PM
81	I had called in to the Village a couple of months ago reporting that our mailbox had been damaged 3 times and replaced twice in 2 weeks. I had asked that there be a comment made in the Bayside Buzz regarding this issue. This was never done to my knowledge. Thank you!	Jun 1, 2012 1:31 PM

83	The sign contest was great. It was nice to see the signs up. Where did they go? Are you moving them around? I wonder if you could have some sort of art contest one day, sort of like to cows on parade in Chicago. Not sure what it could be but businesses and individuals could paint or design whatever the art item could be and then have them up around town as decor. It could be a fundraiser, too, as people and businesses could purchase it for the contest, then the finished products could be voted on by the community while on display. The winners could get awards, recognition, placed in high traffic areas around town, whatever. Also, I really like the Bayside Scene newsletter. Thanx for all your hard work. 117	As a resident who lives North of Fairy Chasm, the events that take place down that street ... no matter how few of them they are ... are incredibly annoying. We become prisoners inside the subdivision with no way out. Why do these events have to run through our neighborhoods and trap us?	May 29, 2012 2:43 PM
118	We have an animal control problem in our immediate neighborhood, 3 households with cats and a dog that live leash free outdoors much of the time- and therefore leave their waste in our yard. We are struggling with addressing	May 29, 2012 2:25 PM

the issue without making police complaints. Any additional information you can provide to remind people that this is inappropriate (through village communications) is appreciated.

119	Need to attract restaurants to area...also how about shared residency with Fox Point pool??? Offer more to residents who are paying such high taxes. How many police officers do we really need in Bayside? Seems like we have more officers for a village our size. Please lower taxes	May 29, 2012 2:22 PM

121	Please put a stop sign or traffic light on Borwn Deer and Pelham or Greenvale so people can cross safely, especially students	May 29, 2012 2:15 PM
122	Since going to the large containers for garbage and recycling, there are far too many containers in public view. I don't understand why they village doesn't pass an ordinance to have them hidden (or if there is an ordinance why it isn't enforced). If I can fit them in my garage, so can everybody else. They are an eyesore, as are the personal belongings that residents store on their front patios and the large amount of weeds that are not taken care of. I have lived here for over 30 years and the same homes that need painting, clean-up, weed control, etc. have not changed.	May 29, 2012 2:15 PM
123	Would appreciate some more floral plantings in public spots, e.g. Ellsworth Park and Village Entrances with native species as possible.	May 29, 2012 2:13 PM
124	There should be some way of disposing or dropping off "large garbage objects" that do no fit in the container	May 29, 2012 2:11 PM
125	I really like living in Bayside. It is a quality place to live. We plan on living here for a long time. ALL of the Village staff clearly take great pride in the Village. I think the Village prides itself on being up to date and current on technology in all aspects of operations. This pride needs to transfer to the municipal water issue. It is time for the Village to provide this service and bring Bayside into present time. Water issues are a going to become even more important as time moves on. The current strategy seems disjointed and there is no sense of Village ownership of this service. Time to act now. I would also like to see a greater emphasis by the police department on watching speeds on various side streets. I really like the FB communications and the responsiveness. Public access to the beach from within Bayside would be really nice but understand the limitations. Development of additional businesses such as restaurants, bakery etc would be great and a huge bonus to the area. Love this survey and thanks for the great service.	May 29, 2012 1:58 PM
126	I'm not sure if tax dollars were used for the kid-drawn traffic signs throughout town, but I really hope not. I would consider that a waste.	May 29, 2012 1:53 PM
